BASE BALL.

Numerous Games to be Played Here Shortly.

Hopkinsville Boys Now at Clarksville and the Latter Team Comes Here Next.

Henderson won the game from Hopkinsville, played at Henderson, Tuesday. The game was full of interesting features, but the locals lost. The score was 4 to 2.

The last game of the series played at Henderson between these clubs also resulted in a victory for the Henderson nine. The score was 7 to 3.

The Hopkinsville team returned to this city Tuesday night and played an exhibition game at Athletic park with the Adams, Tenn. club Wednesday afternoon. The Adams team is one of the strongest independent teams in the South, being composed of the Nashville reserves and other semi-professional players. They have won 37 out of the last 50 games played. They, however, failed to make a landing here, being defeated by the score of 21 to 1.

The game was called at 3 o'clock and was finished in time for the Tennessee boys to return home on the train which passes here at 5:15.

The local team went to Clarksville yesterday morning, where a series of three games will be played this week. The boys will return home tomorrow night and Clarksville will be here Monday, for a series, beginning that day. It is likely that a double header will be played here either Monday or Tuesday, as there are only two days in which to finish the series of three games between Hopkinsville and Clarksville at this place.

Paducah will be the next team to play here. That club will be here Thursday, Sept. 10, for three games. Then comes Jackson for three games the first half of the following week and Cairo will follow, winding up the games here for the season.

UP IN SMOKE.

Faulkner & Son Loose Barn and Tobacco by Fire.

A large tobacco barn, well filled with the tobacco, the product of twelve acres, belonging to E. J. Faulkner & Son, of near Herndon, was destroyed by fire about 5 o'clock Wednesday afternoon.

The process of "fring" the weed was in progress, when it caught from sparks and was reduced to ashes in a very few minutes. The building contained some of the best tobacco raised by Mr. Faulkner and his son this year. The loss is estimated at about \$1,500. They had no insurance and the loss falls heavily upon them.

ANOTHER "DRY" TOWN.

Sebree Takes Vote and the 'Wets' Lose Again.

Last Saturday in North Sebree precinct, which includes half of the town, a vote was taken on the liquor question and resulted in a victory for the "Drys". On Monday the balance of the town took a vote and the "drys" won the fight. The town has been operating under local option for the past three years.

OPEN AT CADIZ.

First Speaking By Circuit Judge Candidates Monday.

Candidates Thompson, P. Cook and James Breathitt will open their campaign for Circuit Judge at Cadiz next Monday, with a joint discussion. Much interest is being shown in the speaking, which will undoubtedly draw a large crowd.

Strange Disease in Cuba.

Havana, Sept. 1.—A strange disease like the bubonic plague but more fatal is reported from various parts of the island.

BEST EVER HELD

Is Universal Opinion of Teachers' Institute.

Professor Evans Gives Much Satisfaction as Instructor --Adjourns To-day.

The Christian County Teachers' Institute, which met Monday, has continued throughout the week with increasing interest.

The attendance has been the largest ever had, 110 teachers being on hand. Prof. Chas. Evans, from Marion, has made a model instructor and all of the teachers have done their part in making the institute a success. The opinion is universal that it is the best one ever held here.

Mrs. W. E. Gray and Prof. John Keith were elected Secretary and Assistant Secretary.

The institute's program Tuesday began with a discussion of Educational Principles, led by the teacher. His effort was a masterly one and left little to be said by the teacher.

Language was next taken up and some entertaining talks made. A class was formed, including the whole institute, with Mr. Evans teacher.

Many good points were brought out. Some of the practical ones were:

1. Make a plan for each lesson.
2. Encourage free speaking of each pupil.
3. Insist upon the correct language.

4. Avoid incorrect sentences.

Miss Myrtle Brasher opened "When Should Text Books Appear." She read a very interesting paper.

Mrs. Nora Williamson handled the subject of "Criticism" in a manner to convince all that she understood her subject thoroughly. Correcting pupils' papers was discussed, with a comparison of the methods of correcting from the board, by members of the class and by the teachers at night.

"Text Books of the Best Kinds" was discussed by Prof. C. E. Dudley. In his excellent talk he said in his opinion the teacher who loses and is acquainted with nature is one of the best text books.

"School Management" was the principal subject at the afternoon session. Excellent papers on Elements of School Management were read by Misses Lucy Hambaugh and Elizabeth Knight.

Firmness and Consistency were given high rank among the essential elements.

Mr. T. W. Vinson made a pointed talk on "Courtesies," holding that the teacher must be a leader in matters of courtesy and politeness. Also in neatness of the room, carefulness of dress and kindred matters.

Mrs. Lucile Fisher and Miss Pearl Jenkins discussed "School Rules." This evoked a general discussion, with a diversity of views, but all agreed that a school must be ruled either by or without rules.

Miss Ellen Young discussed "School Punishment." She advocated corporal punishment if necessary. She urged teachers to never make a rule without enforcing it. Prof. Evans condemned both the use of "rules" and the infliction of corporal punishment.

The subject of History was resumed from Monday and many good talks made. The results of the discussion were summed up in nine points of a successful teacher of history:

1. A retentive memory.
2. Logical power to analyze and group facts.
3. Ethicalness for the subject.
4. Sound judgment.
5. Clear insight into character life.
6. Devotion to truth.
7. Persistence.
8. Vivid imagination.
9. Learn to tell a tale well.

NEW GOODS!

Mercerized Silk Vesting.

The Newest Fall Waisting in all the New Shades. Be Sure and See Them.

New Dress Goods! New Percales!

Big Line Carpets, Mattings, Linoleums and Oil Cloths.

Cut Prices on all Summer Goods.

T. M. Jones.

Devotional exercises were conducted Wednesday morning by Dr. W. L. Nourse. Mr. Evans introduced "Educational Principles" in a fine address. His main theme was the building up and training of character for pupils. There should be a connecting link in the child's life from home to school, to church. All play a conspicuous part in developing the child's future usefulness. Home is the most important factor. Surely the public school where 2,000,000 children daily attend, is a good place to lead the child into right paths. The teacher who fails to build up character, fails in one of the grandest parts of his work.

"Methods of Teaching Grammar" was discussed by Prof. John Sollee. He advocated parsing as a mind trainer. Prof. C. E. Dudley agreed with Prof. Sollee that parsing was good and should be taught in our schools. Prof. W. E. Gray also agreed that parsing was absolutely necessary to a correct knowledge of the language. Prof. Evans was against parsing and quite a lively discussion followed, in which many teachers took part. It was at last decided that some parsing was especially beneficial and absolutely necessary.

"Diagramming" was discussed by Prof. Cherry, Sollee, Moreland and others. It was approved as a shorter and plainer way to understand a sentence. Misses May Estes and Elizabeth Edmunds told how to make the subject an interesting one.

Examination next received attention, being opened by Mr. Wallace Durham. Speeches were made by Prof. John Sollee, Clay Thomas, Oscar Pool and others. Good points brought out were:

1. Prepares for future examination.
2. Trains the memory.
3. Encourages neatness in written work.
4. Compels pupils to be accurate.
5. Trains them to pick out important facts.
6. Brings out pleasant emulation. The bad points are:
1. Causes cheating.
2. Unfairness to timid pupils.
3. Causes ill feeling between pupils.

Prof. Evans said he was trying to substitute daily records of recitations for examinations.

Mrs. Mattie Doss held that examinations should be had only when a pupil has finished a book and then for the purpose of finding out if he shall drop the book.

Miss Ora King followed and said she substitutes reviews connecting one day's work with another.

Miss Lula Earle discussed How to Hold Examinations.

Miss Myrtle West gave a short talk on marks and passing marks, using 100 as percent.

Literatures was discussed next in a very interesting manner by various speakers.

The program yesterday embraced the interesting subjects of "Methods of Teaching," other branches of "School Management," Mutual Duties and History. All received proper attention and the discussions were interesting.

Last night Prof. Evans delivered a lecture to the public.

The program for today is as follows:

8:30 Opening Exercises.

9:00 Educational Principles—Instructor.

9:50 Recess. Music.

10:00 Methods: Writing.

Legibility. Neatness—Misses Carrie Wood and Hattie Newson.

At What Grade Introduced—Miss Elizabeth F. Walker.

What place should this study occupy in school?—Mrs. Lelia H. Stephens and Miss Florence Gray.

10:50 Recess.

1:00 School Expositions—Instructor.

11:50 Adjournment.

Afternoon.

1:15 R. Cal. Quotations.

1:30 Teaching As a Trade—J. E. Brown and J. L. Manire.

As a Profession—L. W. Guthrie and Miss Georgia Fruit.

What is it?—Supt. J. H. Taylor.

What has the Institute Done for us?—Misses David Anderson and Myrtle Holman.

3:30 Recess.

2:40 Miscellaneous Business.

Final Adjournment.

THE ATHAENEUM

Met Last Night After Summer Vacation.

The first meeting of the Athenaeum since the adjournment in June, was held at Hotel Latham last night, being opened with the usual banquet in the ordinary.

The leading topic for discussion was a paper by Dr. Robert F. McDaniel, entitled: "A Few Facts About Bacteriology." For once the doctors were at the front in the discussion and the meeting might have been easily mistaken for a medical society.

Two new members were admitted to fill vacancies—Dr. W. W. Ray and Prof. J. B. Taylor.

The meetings will be held regularly hereafter the first Thursday in each month.

COL. W. P. THORNE

Will Speak at the Opera House Monday.

Col. W. P. Thorne, Democratic nominee for Lieutenant Governor, will speak at the Opera House Monday at 1:30 p. m. Col. Thorne is a great favorite in this county and never fails to draw a large crowd. His good humored speeches this year will be a feature of the Democratic campaign.

The speaking will be held in the Opera House because the Court House is not yet ready for occupancy.

Announcements.

We are authorized to announce
WALTER S. ELGIN

as the business men's candidate for Councilman from the First Ward. Election Nov. 3, 1902.

We are authorized to announce
M. C. FORBES
as the business men's candidate for Councilman from the Second Ward. Election Nov. 3, 1902.

We are authorized to announce
B. W. HARKED
as the business men's candidate for Councilman from the Third Ward. Election Nov. 3, 1902.

We are authorized to announce
DR. J. H. JACKSON
as a candidate for re-election as Councilman from the Fourth Ward, at the November election, 1902.

We are authorized to announce
JOHN B. CALBREATH,
of the Second Ward, a candidate for re-election as Councilman from the Second Ward, at the Democratic party. Election, November 3, 1902.

OFFICE 212 MAIN STREET.
—SEPTEMBER 4, 1903—

The Murray Daily Times has been started with Hoyd Wear as editor. The Ledger will also be come a daily this month and with two dailies Murray will be quite metropolitan.

W. S. Sterrett, son of the late Jeff Sterrett, has assumed control of the Hawesville Plasterer, since the death of his father. "Billy" Sterrett may be expected to make things hum.

A telegram from Jackson says Judge Hargis will leave Breathitt county and locate in Lexington. His property is said to be worth \$250,000. He is one of the richest men in the mountains.

From the way Col. W. C. P. Breckenridge writes about the conviction of Caleb Powers in the Lexington Herald, he has evidently not "returned to the Democratic party" to the extent of wanting Goebel's assassins punished. Nor has he changed his opinion on Beckham's ineligibility.

The Republicans of Louisville finally induced Judge George DuRelle to accept one of the judicial nominations in that city. Other nominees for judge are Temple Bodley, John Marshall, Morton V. Jones, R. E. Woods and Henry L. Stone. Their whole ticket is made up of the best material at their command and they are preparing to make a strong fight for Jefferson county and the city of Louisville.

Nathan Stubbfield, of Murray, Ky., inventor of the Wireless Telephone, gives public notice that the company organized to exploit his invention has gone out of existence, all rights reverting to him. He announces that a new management will soon take hold of the invention, which has been greatly improved.

The Chicago Record-Herald is the first great daily to recognize the American farmer. By setting aside two columns of space daily beginning Saturday, August 22, 1903, for the publication of news pertaining to agricultural industries, The Record-Herald has enabled the farmer to feel that he not only has a personal interest in the daily newspaper but that at least a part of it is published for him and his family.

Warrants have been issued in Livingston county, sworn out by H. V. McChesney, Superintendent of Public Instruction, against Young E. Allison, editor, and Riley, Frankfort correspondent of the Louisville Herald, charging them with criminal libel on account of statements in the Herald that McChesney used school funds to pay his traveling expenses in the recent campaign, and that extra clerk hire had been paid without warrant of law.

The Courier Journal is authority for the statement that the last three governors have pardoned 1131 convicts, of whom 247 were released before they ever got to the penitentiary. This is an average of one hundred pardons a year, to say nothing of the paroles that amount to the same thing, so far as a release is concerned.

Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous lining.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
F. J. CHESNEY & Co., Toledo.
Sold by Druggists, 75c.
Hall's Family Pills are the best.

Impaired Digestion
May not be all that is meant by dyspepsia now, but it will be if neglected.
The unpleasant after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.
Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by
Hood's Sarsaparilla
which strengthens the whole digestive system.

toration to liberty is concerned. The agitation of this question is liable to accomplish good, if it causes the next legislature to take the pardoning power away from the governor and place it in the hands of a commission. If such a law as this were in force, the pardoning of criminals would not be made an issue in state campaigns. The strongest claim upon public support the Democratic ticket has this year, in the absence of a platform, is the fear that Belknap, if elected, would pardon Republican convicts.

More Riots.
Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There is nothing so efficient to cure disorders of the liver or kidneys as Electric Bitters. It is a wonderful tonic, and effective nerve and the greatest aid around medicine for rundown systems. It dispels nervousness, rheumatism and neuralgia and expels malarial germs. Only 50c, and satisfaction guaranteed by R. C. Hardwick, druggist.

SEASHORE VISITORS
Nearly All of Them Returned This Week

Nearly all of the Old Point Comfort excursionists have returned, the ticket limit having expired Wednesday night. The trip was a most delightful one in every respect and all were well pleased. There were about 200 in the party, the crowd being the largest but one that ever went from this section to the seashore.

Tragedy Averted.
"Just in the nick of time our little boy was saved," writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played and havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." Every body ought to know, it's the only sure cure for coughs, colds and all Lung diseases. Guaranteed by R. C. Hardwick, druggist. Price 50c and \$1 Trial bottles free.

SEBREE FAIR
Begins Sept. 22 and Will Continue Five Days.

Work on the Sebree fair grounds is about completed and everything will be in readiness by Sept. 22, the opening day. This will be the first fair ever held at Sebree and the occasion promises to be a big one. The L. & N. will grant half fare rates. The fair will last five days. A large number from this city will attend.

It Saved His Leg.
P. A. Danforth, of Lagrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Bucklen's Anele Salve finally cured it in five days. "For ulcers, wounds, piles, it's the best salve in the world. Cure guaranteed. Only 25 cts. Sold by R. C. Hardwick, druggist.

A Note of Warning.
The methods adopted by the young men at Frankfort are not calculated to bring votes to the Democratic ticket. One newspaper man has been knocked down and two others arrested for criminal libel as a starter and the campaign has not commenced.—Owensboro Inquirer.

Cross-Pace.
John Cross, of Guthrie, and Miss Ora Pace, of Clarksville, were married at the home of the bride Sunday. They will make their home in Guthrie.

BIG ADDITION
To South Kentucky College to Be Made Next Year.
Plans for a New Front to Increase the Capacity Fifty Rooms.

Architect Jas. L. Long has completed the plans for a new addition to the main building of South Kentucky College that will add about fifty rooms to the capacity of the building. The addition is to be in front with the general shape of a horseshoe. The new front will be octagonal shaped and two stories high, with basement. The first floor will be reached by a flight of stone steps fifty feet long at the bottom and narrowing to the arched entrance to the hallway. There will be a commodious court in the center of the new building. The old building is three stories high, while the new addition will be but two, giving a gothic appearance to the whole structure. The present building will be remodeled and refurnished after the ensuing season is over. The work will be begun in the spring and the estimated cost will be about \$30,000. The addition of 50 rooms will about double the boarding capacity of the college. The success of this old and popular institution has been phenomenal under its present management. Prof. A. C. Keykendall and H. Clay Smith have built up the school to an enrollment of more than 200 pupils.

Working Overtime.
Eight hour laws are ignored by those tireless little workers—Dr. King's New Life Pills. Millions are always at work, night and day, curing indigestion, biliousness, constipation, sick headache, and all stomach, liver and bowel troubles. Easy, pleasant, safe sure. Only 25c at R. C. Hardwick's drug store.

COMBS' DAUGHTER TO W.E.D.
Kentucky Girl Will Marry a German Officer in Guatemala.

Louisville, Ky., Aug. 31.—An announcement has reached here of the engagement of Miss Combs, of Lexington, Ky., daughter of Leslie Combs, minister to Guatemala, and Herman Sluether, a German army officer. They will marry in Guatemala.

If you eat without appetite you need Prickly Ash Bitters. It promptly removes impurities that clog and impede the action of the digestive organs, creates good appetite and digestion, strength of body and activity of brain. At R. C. Hardwick's.

ENTERTAINED
In Honor of Her Guests From Casky.

Miss Mildred Humphries entertained yesterday afternoon at the home of her mother, on West Eighteenth street, in honor of the Misses Dillman of Casky. The occasion proved a most enjoyable one to the large crowd of young people present.

Situation in Turkey.
Constantinople, Turkey, Sept. 1.—Five arrests have been made in connection with the Magelessen incident. Three hundred insurgents slaughtered a number of Turks at Monastir and anarchy practically reigns in many sections.

Shooting in Jackson County.
McKie, Ky., Sept. 1.—A man named Isaacs was shot and killed in Jackson county, Ky., by a man named Cronk. No details.

Special Days at the Fall Festival.
Cincinnati, Sept. 2.—In order to meet the particular interests and sympathies of the thousands of people who will visit the Fall Festival at Cincinnati, during the next two weeks, the following days are named, as specially dedicated to celebrating the subjects mentioned in connection with the dates:
Monday, September 7th, Labor Day; Tuesday, Sept. 8th, 11th-Nic Day; Wednesday, Sept. 9th, Home Camera Day; Thursday, Sept. 10th, Fraternal Order Day; Friday, Sept. 11th, Outside School Children's Day; Saturday, Sept. 12th, Commercial Traveler's Day; Sunday, Two concerts on the Marco Polo Stage, by Sousa's Band; Monday, Sept. 14th, City School Children's Day; Tuesday, Sept. 15th, German Day; Wednesday, Sept. 16th, Irish Day; Thursday, Sept. 17th, Flower Day; Friday, Sept. 18th, All Nations' Day; Saturday, Sept. 19th, Cincinnati Day. Cincinnati is particularly accessible from all parts of the country, owing to a central location, and a very complete system of railroads and electric car lines, which cover the surrounding district and center in the city. One fare, takes the visitor from any of the depots, to the Fall Festival, by means of a transfer. There are ample hotel, boarding and lodging house accommodations to suit all purses. Good restaurants furnishing a meal from 25 cents upward, abound. It is the boast of Cincinnati, that she can entertain 100,000 people daily above her own population, without the slightest inconvenience. Just now, the city is putting on her gala attire, and the elaborateness and variety of the decorations, surpass anything seen at previous festivals.

Take a dose of Prickly Ash Bitters at night when you go to bed and you will feel bright and vigorous next morning. It will insure you a copious and healthy passage of the bowels, improved appetite and digestion and increased energy of body and brain. It beats stimulating drinks because its relative influence is natural, hence permanent. At R. C. Hardwick's.

THREE DEATHS.

White Man Kills One and Wounds Another Negro and is Slain.

Paducah, Ky., Sept. 1.—At Pate Bluff on the Tennessee river, in Calloway county, Ky., Lee Petty, a white man from Stewart county, Tenn., fought with Joe and Abe McCarty, negroes, over a "crap game. All three had pistols. Petty killed Joe outright and perhaps fatally wounded Abe McCarty. The latter then shot Petty, who died instantly. The McCarty was landed in jail at Murray by Sheriff Holland, with a bullet hole in his side.

Has No Jurisdiction.

Paducah, Ky., Sept. 1.—In the circuit court here today, Judge Husbands declined to enjoin the county officials of McCracken and Marshall counties from placing the name of John G. Lovett under the Democratic emblem for commonwealth's attorney. Judge Husbands held that he had no jurisdiction. The application for the injunction was made by L. K. Taylor, who declares he is the legal nominee.

Transfer of Real Estate.

S. B. Ficken has sold his house and lot on Water street, in the Leavell addition, to M. T. Bartley, who has moved into the house. Mr. Ficken will leave at once with his family for Redlands, California. The price paid was \$1,600.

Sebree Against Saloons.

Sebree, Ky., Aug. 31.—In the whisky election held here today 297 votes were cast, 213 against the saloons and 84 for it—a majority of 132 for the Prohibitionists.

If you don't buy Clothing from J. T. Wall & Co. you don't buy Clothing RIGHT!

Enclosed with every bottle is a Ten Cent package of Grove's Back Root, Liver Pills.

NATURE'S PUZZLE-PICTURE.

Profile of the General Found in Famous Washington Elm.

The famous Washington elm in front of the Wadsworth Atheneum in Hartford, Conn., was felled the other day on account of the possibility of its being blown down.

A cross section made in one of its limbs showed it to be partly hollow and the hollow part took the shape of the familiar profile bust of Washington.

The find, says the New York World, has astonished local antiquarians and the specimen has been inspected by many thousands of people.

The Washington elm was so-called because Gen. Washington and Rochambeau met under it and were afterward entertained at the house of Daniel Wadsworth. The tree had been a landmark in Hartford for over a century.

The elm stood near the corner of Main and Atheneum streets, which is the headquarters of the Connecticut Historical society. In the spacious grounds of the Atheneum is a statue of Nathan Hale, presented by J. Pierpont Morgan.

Much regret was expressed when it was learned that the noble elm would have to go, and when the choppers went to work there was an army of hunters on hand to get souvenirs. Chips, twigs and other pieces of the tree were carried away, and sections of the trunk were preserved to be made into chairs for the Historical society.

Superintendent Philip Hansing, of the street department, was one of the relic hunters, but his patriotic desires were not satisfied with an ordinary bit of wood from the tree.

He carefully examined every limb as it was cut away to find something that would be really suggestive of Washington himself, and, curiously enough, he was rewarded by finding the profile of Washington.

Members of the Connecticut Historical society who were shown the piece could give no explanation.

Researches have shown that this is one of the very few such things that have happened in the world. Though there are authentic records of a few portraits made by nature in the grain of marble, this portrait in wood is regarded by those who have seen it as more wonderful than anything else of the kind.

Stomach Trouble.

"I have been troubled with my stomach for the past four years," says D. L. Beach, of Clover Nook Farm, Greenfield, Mass. "A few days ago I was induced to buy a box of Chamberlain's Stomach and Liver Tablets. I have taken part of them and feel a great deal better. If you have any trouble with your stomach try a box of these tablets. You are certain to be pleased with the result. Price 25 cents. For sale by C. K. Wily, druggist."

Bright Prospects.

According to a statement made in New York by Lord Mayor Dillon of Dublin, Ireland has the brightest prospects before her in the history of her existence.

No need to fear sudden attacks of cholera infantum, dysentery, diarrhea, summer complaint of any sort, if you have Dr. Fowler's Extract of Wild Strawberry in the medicine chest.

Serious Trouble.

The United States marines and a number of citizens at Annapolis have been involved in serious trouble recently, and more clashes are feared.

To Cure a Cold in One Day

Take Luxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Coldest on Record.

'Line Accident.

One man was killed and another probably fatally injured in a mine accident near Cameron, Col.

ITALIAN SAINTS' DAYS

They Are Brought to Our Shores by the Immigrants.

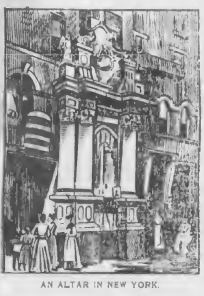

The Annual Festivals are Celebrated in Gorgeous Style in the Italian Quarter of New York City.

However much the Italian who comes to our land from the sunny shores of Italy may change and adapt himself to the customs and conditions of his adopted country, he does not forget the religious customs of the home land, but clings to all the church festivals with which he has been familiar from infancy. In every Italian quarter in the large cities of the country this fact is strikingly manifest. In fact, as a writer in one of the Italian districts of New York remarked, after making a study of the festivals and celebrations: "I cannot tell where one leaves off and another begins."

From this it must not be supposed that the same uninterrupted succession of religious festivals prevails in the towns of Italy, but the explanation is found in the fact that people from widely separated parts of Italy are gathered together in the same district, and as these are almost as many as the days of the year, and each town or province has its particular festival, it takes a good many different ones to get all around the Italian quarter. Even though the Italian is not a religious man, he is a patriotic one, and he has a few points to go to, and a few days in the year, and each town or province has its particular festival, it takes a good many different ones to get all around the Italian quarter. Even though the Italian is not a religious man, he is a patriotic one, and he has a few points to go to, and a few days in the year, and each town or province has its particular festival, it takes a good many different ones to get all around the Italian quarter.

Most of these religious observances are of a comparatively small character, and only a comparatively small number of people, the number depending on the number which have been brought to the city. But there are a few which are of a more important character, and at great expense elaborate preparations are made to fit them to the occasion. One of the largest of the annual festivals is the Ascension of Our Lady of Mount Carmel, has just ended, and while every one who takes an interest in the number of Italians had its celebration more or less elaborate it remained for the Italian, with its three large Italian settlements, to furnish something big and gorgeous.

Altars were erected in several places in the streets, and the most striking feature of the festival. They are

AN ALTAR IN NEW YORK.

generally built of wood 40 or 50 feet in height and enameled or covered with painting. Some attempt is made at fancy carving, and the top pieces of some are most elaborate. With their side and ends are placed religious figures of the saints to be honored, and in the front are shelves for the placing of the candles brought by those who seek the spiritual assistance of the saint. The statue placed in the shrine within is a poor shrine. Indeed, that does not cost more than \$1,000, and a great many of them cost less.

But the celebrants are not satisfied with these poor shrines. Almost every family has its family shrine in the window. They are as expensive as the means of the family will allow, and the central figure of the shrine is the saint to be honored.

A prominent feature of the festival at New York was the marching of the numerous Italian societies, with their early dressed members, each headed by a band, which sought to make more noise than any other band in the procession. Frequent pauses in the march were caused by the various societies being stopped while those lining the route would play paper money of varying denominations to the banners. This is the old way in which the Italians have contributed toward the expenses of the celebration, and each society with its particular patron saint is remembered by the friends.

At a strange part of it is the parade of the women on the banners as safe as though locked in a bank vault. The women would dare to move the displeasure of any one of the saints by stealing any part of the offering made.

The procession ended the church and then before the shrine of Our Lady of Mount Carmel, there are further offerings made of gold, jewelry, diamonds, etc., which are cast at the feet of the statue while the spell of excitement holds the devotees within its grasp.

GEORGE ELOIN.

NOT SO IMPREGNABLE

Gibraltar Is Not the Ideal Fortress the World Had Supposed.

Modern Methods of Warfare Have Rendered It Less Valuable as a Stronghold—Present Day Cannon Would Annihilate It.

Sir Charles Dilke has stirred Britishers by declaring that if Spain could be induced to exchange Ceuta, on the African coast, for Gibraltar, it would be a good bargain for Great Britain. Whereat arises the question—is not Gibraltar as impregnable as the world has been led to believe, after all not a fortress ideal in strength and position?

It has been so looked upon for 200 years, and the authorities say really was impregnable in the days of sailing vessels and prior to the methods of modern warfare, prior to the many death-and-ruin-dealing inventions of the day. Gibraltar dominated the entrance to the Mediterranean back in the days of sailing craft, for the set of the ocean currents made it necessary for vessels to come close to "the Rock," but now vessels propelled by steam can go through the strait out of range of the guns from the fort, the distance from Gibraltar to Ceuta being 15 miles, and the waters off Ceuta are sufficient depth to allow the passage of the shipping. And further to detract from the glory of Gibraltar, experts have recently found out that all the costly work accomplished by the British in adding to the natural impregnability of her hoisted fortress, in the present day is not of great account; that the port, the town, the new barracks, everything would be within range of heavy artillery placed on Spanish soil, anywhere along the whole stretch of the bay of Algeciras at distances varying from 6,000 to 10,000 yards.

(Which may cause Great Britain to regret progressing improvements, the cost of which has been estimated at \$25,000,000.)

Gibraltar is Great Britain's second smallest dependency, this famous crown colony possessing an area of nearly two square miles. The promontory separating Gibraltar bay from the Mediterranean is about 24 miles long and its maximum width three-quarters

THE ROCK OF GIBRALTAR.

of a mile. Its highest point is 1,400 feet; the northern and eastern sides are very nearly inaccessible, the southern side, though steep, is not so precipitous, and only on the west is the slope at all gradual. The town lies on the western slope along the bay. A sandy strip separates the town from the mainland, and here are to be found the recreation grounds of the English residents and the wells which supply the fortress with water. Beyond the strip between the British and the Spanish lines, is the "neutral ground."

The population of Gibraltar, including the garrison, is over 5,000 men, numbers 28,000. Most of the inhabitants are of Spanish ancestry. The climate is sub-tropical, but owing to the fact that the town is so shut in the climate does not compare very favorably with that of some other sub-tropical region. In the past the mortality was very considerable, owing to overcrowding as well as to climatic conditions, but there has been a decrease of epidemics since the adoption of stringent sanitary measures. In order to limit the population of this small place aliens were not allowed to enter the town or remain in it without a special permit. The military character of Gibraltar is rigorously maintained.

The sub-tropical climate of Gibraltar are the famous cliff-gardens, being during the great siege (1779-83); there are two ranges of these which have been cut of the solid rock. At various favorable points batteries have been erected, and the front of the town is protected by a sea wall and breakwaters. The improvements now in progress are very extensive, extending and completing the existing mole and building a detached mole, formation of a deep harbor of 350 acres; a new dockyard; a torpedo-boat harbor, making the harbor secure against torpedo attack.

The ancients looked upon Gibraltar as has the moderns, naming it Calpe, one of the pillars of Hercules. In 710 a Moorish force, afterwards to conquer Spain, landed on the rock and laid the foundation of the Moorish castle that to-day is still remaining. The name of the commander was Tarik, and in his honor the place was called "Gebel Tarik," Tarik's Hill—which "Gebel Tarik," in the course of time, has been corrupted into Gibraltar.

A FACT ABOUT THE "BLUES"

What is known as the "Blues" is seldom contracted by actual external conditions, but in the great majority of cases by a disordered LIVER.

THIS IS A FACT which may be demonstrated by trying a course of

Tutt's Pills

They control and regulate the LIVER. They bring hope and buoyancy to the mind. They bring health and elasticity to the body.

TAKE NO SUBSTITUTE.

Conspiracy to Poison.

A woman and two men have been charged with a conspiracy to poison W. M. Cox, who died under suspicious circumstances in Marshall county several days ago. The woman under arrest was Cox's wife.

A Remarkable Record.

Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many million bottles have been sold, no case has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all that time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by C. K. Wily, druggist.

To Oppose Judge Bell.

The Republicans of Lincoln county have been instructed for Judge McRoberts as the Republican nominee for Circuit Judge to oppose Judge Bell, the Democratic candidate.

Oil the Machinery.

The most complex and delicate machine is the human body. It will occasionally get out of order, the main causes being improper or irregular food, worry, exposure or overwork. Dr. Caldwell's (Laxative) Syrup Pepsin is a powerful oil which will prevent friction and complications in the human body. It helps the stomach and bowels to do their work; tones up the liver; cures constipation, dyspepsia and sick headache. All druggists sell it.

Arrested in Montana.

Frank Baker, a cowboy, has been arrested in Montana on the charge of being implicated in the intended hold-up of a Great Northern passenger train.

Indiana Poetry.

The "limit" of poor verse has been reached by a Hoosier who tellingly writes: "The poor, benighted Hindoo, He does the best he kin do; He sticks to his caste from first child to last, And for pants he makes the skin do."

Too many people make the skin do the work of the lungs, kidneys and bowels. A bilious, constipated condition means a yellow skin, listless eyes, foul breath, and a general morose feeling. All this can be remedied by the use of Dr. Caldwell's (Laxative) Syrup Pepsin, which is sold by all druggists and dealers in medicine.

Searching for the Murderers.

The entire Chicago detective force is searching for the men who held up the car barn in that city Saturday night and killed two men.

Mr. D. P. Daugherty, well known throughout Mercer and Sumner counties, W. Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhoea; was attended by two physicians who gave him little if any relief, when a neighbor, learning of his serious condition, brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. For sale by C. K. Wily.

An Honorary Member.

Ambassador Porter has been elected an honorary member of the Society of the Cincinnati.

You Know What You Are Taking When You Take Grove's Tasteless Chill Tonic, as plainly printed on every bottle showing that it is simply Iron and Quinine in a tasteless form. No Cure, No Pay. 50c.

Another Will Found.

Another Fair will, said to have been found.

WORST ON RECORD

Will be Month of September,
Says Marsh.

Violent Thunderstorms and Extremely Heavy Rainfall Followed by Frost and Snow.

Following is a summary of weather forecasts for the month by Marsh, the Ohio prophet:

The month of September will be a great storm month, with changeable temperature. Hot to cool waves prevailing; some very hot days during the month, with cooler nights and mornings. Violent thunderstorms and extremely heavy rainfall will prevail generally throughout the country, accompanied by cyclonic winds. The storms will be most violent and the rainfall the heaviest over the Ohio Valley, covering the states of Ohio, Indiana, Kentucky, Tennessee, West Virginia, Pennsylvania and over the Eastern and New England States. Violent storms will occur on the Atlantic Ocean and along the entire Atlantic coast and over the Southern and Gulf States.

The equinoctial storms occurring between the 19th and 24th will be very severe over the entire country, causing great damage and destruction to property. Much damage will be done by severe storms and extremely heavy rainfall over the West, Northwest and Southwest, and all states west of the Mississippi River, the storms will be severe over the states of Iowa, Nebraska, Wisconsin, Missouri, Dakota and Minnesota. The extremely heavy rainfall over Iowa, Kansas and Nebraska will cause floods. Floods will occur over the Eastern and New England States, over the Ohio Valley and Tennessee and the Southern and Gulf States. In all, the month of September will be the worst storm and flood month on record for September.

General Forecast.

Between the 6th and 12th high temperature and severe storms will prevail. General severe electrical storms, with high wind and heavy rainfall over the Eastern States, causing damage and much destruction along the North Atlantic Coast.

Between the 13th and 15th severe storms will again prevail over the Eastern and New England States and coasts, and on the Atlantic Ocean. Rain, wind and thunder storms over the states of Ohio, Indiana, Kentucky and West Virginia.

Between the 17th and 21st heavy rain storms, accompanied by high wind and lightning over the Ohio Valley and Tennessee and over Ohio, Indiana, Kentucky, West Virginia, Pennsylvania, and generally over the Ohio River Valleys and over the Missouri and Mississippi Valleys.

Between the 22d and 25th equinoctial storms will occur, severe, with heavy rainfall, covering greater portion of the country. Terrific rain storms over the states of Ohio, Indiana, Kentucky, West Virginia, Tennessee, Pittsburg and headwaters of the Ohio and the mountain districts.

Between 27th and 30th warm to cool wave; very cool weather, with heavy frost north of the lake regions. Storms, heavy rains, followed by cooler weather and frost over Ohio, Indiana, Kentucky, West Virginia, Tennessee and the mountain districts. The temperature will be at freezing point, with frost and snow over the Rocky Mountain regions, and below freezing in the extreme Northwest.

MARRIED,

But Will Live Apart For a Year.

St. Paul, Minn.—Charles Lapin, of Chicago, and Lena Jaffee, St. Paul, were married here to-day with the distinct understanding that they were not to live together for a year. They were to have been married in September, 1904, but fearing something might prevent, they got married to-day to make the engagement binding upon both. The husband has deposited his savings in a St. Paul bank in his wife's name and she has deposited hers in his name, none of it to be touched until they live together.

THOUGHT GIRL A CROW.

Farmer Kills His Daughter While Shooting At Supposed Crow.

Otasego, Mich., Sept. 1.—Duncan Swan, a well-known farmer residing north of this village, accidentally shot his daughter Mary yesterday, and she died last night from the wounds. Swan had been troubled with crows in his corn. Yesterday he saw the stalks moving, and thinking crows were in the patch again, discharge his shotgun at the moving corn. To his horror his daughter screamed, and he found that he had shot her in the breast. She was gathering corn for dinner, and her father did not know it. Swan is nearly crazed.

ELECTED REPRESENTATIVES.

Local I. O. O. F. Lodge Will Send Delegation to Lexington.

At a meeting of Green River Lodge No. 54, I. O. O. F., held Monday night, Messrs. G. H. Champion, L. H. Davis, Frank Moore, Ellis Roper and Geo. W. Thacker were elected to represent the lodge at the Grand Lodge which meets in Lexington, Oct. 13. During the meeting at Lexington a thirty-thousand dollar addition to the W. and O. Home will be dedicated.

W. T. Cooper & CO.,
Opposite Court House
Phone 116.

EXAMINATION WAS RIGID.

But Esq. Fraser Passed and is Now Registered.

Mr. C. B. Fraser, of the firm of F. Brandon & Co., Lafayette, recently passed a most satisfactory examination before the State Board of Pharmacy and is now a registered pharmacist. Esq. Fraser has had about five years' practical experience in the retail drug business at Lafayette and is in every way qualified to fill any prescription. He is a most courteous gentleman, has a wide acquaintance and is very popular with the public generally.

ANOTHER DIVORCE SUIT

Added to the List For Fall Term of Court.

Cornelia Anderson sues for divorce from Dudley Brandon. Plaintiff states that their marriage occurred several years ago and that more than a year ago defendant abandoned her and has since refused to live with her.

Lost a Leg.

The 10-year-old son of Harvey Williamson, of Platter, Indian Territory, formerly of Hopkinsville, had one of his legs caught in a hay press and so badly injured that amputation was necessary.

Personal Gossip

Miss Sadie Frankel is visiting in Henderson.

Mr. L. Yonts and wife have gone to Hot Springs, Ark.
